Subject: Out of specification result - Azithromycin Dihydrate API batch AZD25E063

Dear Sir/Madam,

We wish to notify you of an out of specification result obtained during incoming quality control testing of Azithromycin Dihydrate USP, batch AZD25E063, received at our Suzhou facility on 21 August 2026.

Consignment details:

Product : Azithromycin Dihydrate USP
Material code : API-AZD-USP
Batch : AZD25E063
Manufactured : 2026-06-14
Retest date : 2028-06-13
Quantity : 12 drums x 25 kg (300 kg total)
Our PO : SPF-2026-4471

Test result:

Related substances - total impurities : 2.34% w/w
Specification (per your CoA and USP) : NMT 2.0% w/w
Method : USP <621> HPLC, in-house validated

The test was performed in duplicate by two analysts on separate days and both results exceeded the limit. Your Certificate of Analysis for this batch reports 1.42% w/w total impurities at release. Individual unknown impurity at RRT 1.18 was 0.31% against a limit of NMT 0.20% w/w.

The full consignment of 12 drums has been placed on quarantine hold at our warehouse and will not be released to manufacturing. Storage since receipt has been at 22 +/- 3 degrees C with relative humidity below 60%, and we can provide the warehouse monitoring records.

We have retained 200 g of sample from drum 4 for any joint investigation and can send it to your laboratory. Please advise on disposition of the consignment and confirm whether other batches from the same campaign have been supplied to us.

Best regards,

Ling Chen
